

**sdmay23-49: Laser Target Hit Sensor**

Week 6 Report

October 29 - November 4

**Team Members**Lincoln Khongmaly — *Advisor Meetings*Elijah Bryant — *Testing*Akushkumar Patel — *Meeting minutes and communications*Sidney Stowe IV — *Timeline Management*Adam Runde — *Design*Neftali Medina — *Client Meetings***Summary of Progress this Report**

Spoke with advisor to gain insight into next steps of testing.

Collected a green laser emitter from the client for testing.

**Pending Issues**

None at the moment, we are just waiting on parts.

**Plans for Upcoming Reporting Period**

Ordering parts such as IR laser detectors (photodiodes) and acrylic plates.

Cutting down plates to various shapes of small size.

Preparing for developing the first prototype next week.
